**Re: Lower Willamette River, Portland Harbor Superfund Site
USEPA Docket No: CERCLA-10-2001-0240
Monthly Progress Report for January 2011**

Dear Mr. Humphrey:

This monthly status report provides information required by the Portland Harbor Superfund Site Administrative Settlement and Administrative Order on Consent (ASOC).

1. ACTIONS TAKEN IN JANUARY 2011

- A comprehensive response to EPA's September 27, 2010 letter on the benthic risk evaluation; December 8, 2010 letter on the general responses to EPA non-directed RI, BHHRA, and BERA comments; and December 21, 2010 letter on the status of the Portland Harbor FS was provided to EPA on January 12, 2011.
- Portland Harbor-calculated whole body tissue concentrations for smallmouth bass and carp used for the Portland Harbor BHHRA were provided to EPA on January 21, 2011.
- A meeting with EPA to discuss the directed comments on the conceptual site model was held on January 25, 2011.
- The MNR Modeling presentation was provided to EPA on January 25, 2011.

Deliverables Approved by EPA

None.

Deliverables Submitted to EPA

- The final Stormwater Loading Calculations Methods Report was provided to EPA on January 31, 2011.

Comments/Documents Provided by EPA

January 10, 2011: EPA provided an extension of the dispute deadline for EPA's December 8, 2010 directed comment related to the conceptual site model update including source linkage to in-water contamination for the RI until January 28, 2011.

January 25, 2011: EPA provided an extension of the dispute deadline for EPA's December 8, 2010 directed comment related to the conceptual site model update including source linkage to in-water contamination until February 11, 2011.

January 28, 2011: EPA provided comments on the December 14, 2010 four FS check in presentations.

2. PROBLEMS ENCOUNTERED, ANTICIPATED DELAYS, AND SOLUTIONS

Per last month's progress report, the LWG is working on a revised schedule for development and submittal of the FS. On January 26, 2011, LWG informed EPA that the LWG was proposing to submit the draft FS by December 2011. A proposed RI/FS schedule with interim dates will be provided to EPA in early February.

3. RESULTS OF SAMPLING, TESTS, AND OTHER DATA RECEIVED

None.

4. SCHEDULE FOR THE NEXT FOUR MONTHS

Work covered by the ASOC that is potentially planned for February, March, April, and May 2011 includes the following:

- February 2011: Focused Technical MNR Modeling Meeting with EPA
- March 2011: Submit FS Tools Check-In Materials for Surface Water/TZW Evaluation, Mitigation, Dredging, Treatment, and Costing Tools to EPA

Submittal dates for pending documents currently under preparation by LWG and scheduled for submittal in upcoming months are listed in Table 1 – Status of Active LWG Deliverables – Portland Harbor RI/FS. This table has been reformatted from previously submitted versions to only include pending and recently submitted deliverables for which EPA comments or approvals are required. Table 2 – Status of LWG Deliverables – Portland Harbor RI/FS reflects the more complete list of LWG submittals and is equivalent to the former Table 1 provided in previous progress reports.

5. DOCUMENTS AND ISSUES AWAITING EPA RESPONSE

EPA comments or approvals have not been received on a number of documents that have been submitted to EPA as required by the ASOC; these submittals are listed in Tables 1 and 2. The LWG requests EPA provide document approvals for these submittals to verify that the terms of the ASOC are being met and issues are resolved to maintain progress on the RI/FS. Also, the LWG believes that many of the documents listed as future submittals in Table 2 are no longer needed (see Status/Comments column) and requests that EPA review the list and confirm that these documents are indeed not needed.

If you have any questions, please give me a call at (503) 670-1108.

Sincerely,

Jennifer Woronets
LWG Administrative Project Coordinator
